2 How to Read This Report

This section explains how the report is structured, how risk ratings are presented, and what action you should take based on the findings.

2.1 Reading Order

We recommend the following reading order:

1. Executive Summary — a one-page overview of the key findings and overall risk rating. Start here if you are short on time.
2. Main body sections — detailed analysis of each topic area, presented in a logical sequence from site context through to recommendations.
3. Recommendations — specific actions required before, during, or after the planning process.
4. Limitations and Disclaimers — important caveats on the scope of the assessment and the conditions under which the findings are valid.

2.2 Report Structure

Every section of Travel Plan follows a consistent structure:

- Context — what the section covers and why it matters to the development proposal.
- Data and Evidence — the factual information drawn from public datasets, enrichment APIs, and client-supplied information.
- Analysis — our professional assessment of what the data means for the site.
- Risk Rating — a traffic-light classification (where applicable) summarising the level of concern.
- Recommendation — what action, if any, is required.

2.3 Traffic-Light Key

Risk ratings throughout this report use a three-colour system:

LOW	Low risk. No significant constraint identified. Standard design measures are sufficient. No specialist investigation is likely to be required.
MEDIUM	Moderate risk. A constraint or data gap has been identified that requires attention. Further investigation, a design response, or a planning condition may be needed.
HIGH	High risk. A significant constraint or issue has been identified. Specialist investigation, a specific design solution, or early engagement with the relevant statutory body is strongly recommended before submission.

2.4 What to Do Next

1. Review the Executive Summary for an overview of all findings.
2. Focus on any items rated AMBER or RED — these require action before or during the planning process.
3. Check the Recommendations section for a prioritised list of next steps.
4. Review the Update Triggers section to understand when this report should be refreshed.
5. Contact Site Intelligence if you have questions about any finding or wish to commission follow-up specialist work.

5 Transport Context

The transport context of the site is assessed with reference to the public transport network, pedestrian and cycling infrastructure, and local highway network to establish the baseline conditions for sustainable travel.

PTAL Grade	Amenity Grade
0	F

6 PTAL Assessment

PTAL Grade	0
Accessibility Index	0
Public Transport Stops	1

Stop / Station	Mode	Distance	Frequency
No stops within catchment	—	—	—

The PTAL grade of 0 with an Accessibility Index of 0 indicates very poor public transport accessibility. This is a key consideration in setting Travel Plan targets and determining the level of intervention required.

10 Measures

The following measures will be implemented to achieve the Travel Plan objectives and targets.

Measure	Description	Responsibility	Timing
Travel Plan Coordinator	Appoint a TPC to manage and monitor the Travel Plan	Developer	Pre-occupation
Welcome Packs	Sustainable travel information packs for all residents	TPC	At occupation
Cycle Storage	Secure, covered cycle storage for each dwelling	Developer	Pre-occupation
EV Charging	Active EV charge points for all dwellings	Developer	Pre-occupation
Public Transport Information	Real-time bus/train information displays	TPC	At occupation
Car Club	Negotiate car club bay provision (if applicable)	TPC	Within Year 1
Personalised Travel Planning	Offer PTP sessions to new residents	TPC	Within 3 months of occupation
Cycle Maintenance	Annual cycle maintenance event (Dr Bike)	TPC	Annually
Walking Routes Map	Provide walking route maps to local amenities	TPC	At occupation
Monitoring Survey	Annual resident travel survey (TRICS-compliant)	TPC	Annually

© PF & Co Holdings Ltd

11 Management & Monitoring

The Travel Plan will be managed by a designated Travel Plan Coordinator (TPC) and monitored through annual surveys for a minimum of five years from first occupation.

Travel Plan Coordinator	To be appointed by the developer
Monitoring Period	5 years from first occupation
Survey Method	TRICS-compliant multimodal survey
Survey Frequency	Annually (within October–November window)
Reporting	Annual monitoring report submitted to South Hams District Council
Remedial Action	If targets not met, additional measures implemented within 3 months

11.1 Monitoring Framework

Year	Action	Target Check
Year 0 (Baseline)	Pre-occupation baseline survey	Set baseline modal split
Year 1	First monitoring survey + report	Year 1 targets assessed
Year 2	Second monitoring survey + report	Progress review
Year 3	Third monitoring survey + report	Mid-point target check
Year 4	Fourth monitoring survey + report	Progress review
Year 5	Final monitoring survey + report	Year 5 targets assessed

12 Action Plan

Action	Target Date	Responsibility	Status
Appoint Travel Plan Co-ordinator	Pre-occupation	Developer	PLANNED
Install cycle storage	Pre-occupation	Developer	PLANNED
Install EV charge points	Pre-occupation	Developer	PLANNED
Prepare welcome packs	First occupation	TPC	PLANNED
Baseline travel survey	Within 3 months of 50% occupation	TPC	PLANNED
Personalised Travel Planning sessions	First 6 months	TPC	PLANNED
Year 1 monitoring survey	12 months from base-line	TPC	PLANNED
Year 1 monitoring report	Within 2 months of sur-vey	TPC	PLANNED

© PF & Co Holdings Ltd

13 Review Mechanism

The Travel Plan is a living document and will be reviewed annually following each monitoring survey. If targets are not being met, the following escalation process will apply.

Trigger	Action	Timescale
Target missed by <5%	Review and enhance existing measures	Within 3 months
Target missed by 5–15%	Implement additional measures + remedial action plan	Within 3 months
Target missed by >15%	Full Travel Plan review + meeting with LPA	Within 1 month

> The Travel Plan should be secured by a planning condition or section 106 agreement. The monitoring fee (if applicable) should be agreed with South Hams District Council prior to the grant of planning permission.

14 Known Limitations and Assumptions

14.1 What This Report Does NOT Assess

This is a Tier 1 desktop study. The following are outside the scope of this assessment:

- Intrusive site investigation (boreholes, trial pits, soil sampling)
- Topographic or measured building survey
- Structural assessment of existing buildings or retaining structures
- Detailed ecological survey (Phase 2 habitat surveys, protected species surveys)
- Detailed arboricultural survey to BS 5837
- Archaeological field evaluation (geophysical survey, trial trenching)
- Noise, vibration, or air quality monitoring
- Detailed drainage design or hydraulic modelling
- Legal title review or boundary verification

14.2 Data Gaps

The following data was not available at the time of this assessment:

- Site-specific infiltration test results (BRE Digest 365)
- As-built drainage records for existing development
- Ground investigation data (if no published BGS borehole logs are available for the site)
- Detailed topographic survey data (EA LIDAR used where available)
- Historic land use records prior to available OS mapping epochs

14.3 Key Assumptions

This report has been prepared on the basis of the following assumptions:

- Information provided by the client is accurate and complete
- Public dataset boundaries (flood zones, conservation areas, etc.) are current at the date of this report

© PF & Co Holdings Ltd

- The proposed development is as described in the project brief and does not materially change in scale, layout, or use class
- No contamination, ground instability, or other hazard exists beyond that identified in publicly available records
- Planning policy documents referenced are current at the date of this report

14.4 Specialist Investigation Required

The following specialist investigations may be required depending on the constraints identified in this report:

- Site-specific ground investigation (where contamination or geotechnical risk is identified)
- Phase 2 ecological surveys (where Phase 1 identifies potential for protected species)
- Detailed arboricultural impact assessment (where TPO trees or significant vegetation is present)
- Detailed noise impact assessment (where the site is adjacent to significant noise sources)
- Heritage impact assessment by a conservation-accredited professional (where designated heritage assets are affected)

14.5 Changes That Would Require Update

This report should be reviewed and updated if any of the following occur:

- Material change to the proposed development (scale, layout, use class, or density)
- New or amended planning policy (local plan adoption, NPPF revision)
- Change in housing land supply position
- New environmental data (updated flood maps, newly designated heritage assets or ecological sites)
- More than 12 months elapsed since the date of this report

15 Verification Status Summary

Every data point in this report has been classified according to its verification status. The table below summarises the confidence level of the data underpinning the findings.

Data Category	Classification	Count
Verified against authoritative source	VERIFIED	11
Supported by public data / professional judgement	SUPPORTED	3
Assumed — requires confirmation	ASSUMED	1
Total Data Points		15

1 data point is classified as ASSUMED. These items should be confirmed through specialist investigation or client verification before reliance is placed on the related findings.

16 Data Assurance Summary

Site Intelligence applies a rigorous data assurance process to every report. This section documents the breadth of data coverage, confidence levels, and quality assurance stages applied.

16.1 Data Coverage

Metric	This Report	Typical Manual Report
Data sources consulted	15	3 – 8
Constraint categories checked	23	5 – 10
Enrichment APIs queried	15	0 – 2
Provenance entries recorded	15	0

16.2 Data Confidence

Classification	Badge	Percentage
Verified against authoritative source	VERIFIED	75%
Supported by public data	SUPPORTED	20%
Assumed — requires confirmation	ASSUMED	5%

16.3 Quality Assurance Checklist

- ✓ Automated constraint detection (23-category enrichment pipeline)
- ✓ Source provenance recording (every data point traced to origin)
- ✓ Cross-report consistency check (no conflicting data across the submission pack)
- ✓ Professional review and sign-off

18 Update Triggers

Validity Period: 12 months from the date of issue.

Travel Plan is valid for 12 months from the date of issue. After this period, or if any of the following trigger conditions occur, the report should be reviewed and updated before reliance is placed upon its findings.

- Material change to the proposed development (scale, layout, use class, number of dwellings, or site area)
- Adoption of a new or revised Local Plan or Neighbourhood Plan
- Revision of the National Planning Policy Framework (NPPF)
- Change in the Local Planning Authority's published housing land supply position
- Update to Environment Agency flood zone mapping affecting the site
- New or amended designation (conservation area, listed building, SSSI, SAC, SPA, Ramsar, AONB/National Landscape, AQMA, TPO)
- Pre-application advice received from the LPA or any statutory consultee
- Change in site ownership, applicant, or client
- Passage of more than 12 months since the date of issue

> To request an update, contact Site Intelligence quoting the document reference shown on the cover page. Updates are provided at a reduced fee where the original data remains substantially current.

19 Important: Limitations, Disclaimers and Conditions of Use

1. Named Client and Reliance Restriction

This report has been prepared by Site Intelligence (a service of PF & Co Holdings Ltd) for the sole and exclusive use of ('the Client') in connection with the proposed development at Falconers, Road from Plympton Cross to Moult Hill, Salcombe, TQ8 8LF. No other party may rely upon, reproduce, or distribute this report or its findings without the prior written consent of Site Intelligence. Any unauthorised use or reliance by third parties is entirely at their own risk, and Site Intelligence accepts no responsibility or liability in such circumstances.

2. Purpose Limitation

This report has been prepared solely for the purpose stated herein. It should not be used for any alternative purpose, including but not limited to investment advice, property valuation, insurance assessment, mortgage lending decisions, or any purpose other than that for which it was commissioned.

3. Third-Party Exclusion

This report does not confer any rights or benefits on any third party under the Contracts (Rights of Third Parties) Act 1999 or otherwise. No third party may enforce any term of this report.

4. Information Reliance

The findings in this report are based on information provided by the Client, publicly available data sources, and desktop research. Site Intelligence has not independently verified the accuracy or completeness of information provided by the Client or third parties.

5. Limitations of Investigation

The scope of this report is limited to a Tier 1 desktop travel-plan undertaken on the date of this report. The findings reflect conditions and information available at the date of investigation. Conditions may change over time, and the report should not be relied upon beyond the validity period stated.

6. Professional Advice Caveat

This report provides professional opinion based on the information available at the time of preparation. It does not constitute legal advice, and specialist professional advice should be sought for specific matters including but not limited to structural engineering, surveying, ecology, archaeology, and contaminated land investigation.

7. No Guarantee of Outcome

Site Intelligence provides no guarantee as to the outcome of any planning application, building control submission, or statutory process. Planning and regulatory decisions are made by the relevant authorities at their sole discretion.

8. Artificial Intelligence Assistance Disclosure

This report was prepared with the assistance of artificial intelligence tools for data gathering, analysis, and document preparation. All outputs have been reviewed and verified by a qualified professional. The use of artificial intelligence does not diminish the professional responsibility for the contents of this report.

9. Data Completeness Caveat

While every effort has been made to identify relevant constraints and information, the absence of a recorded constraint does not guarantee that no constraint exists. Public data sources may contain gaps, errors, or omissions. No record does not mean no risk.

10. Limitation of Liability

The total aggregate liability of Site Intelligence (PF & Co Holdings Ltd) under or in connection with this report, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, shall not exceed £10,000,000. Site Intelligence shall not be liable for any indirect, consequential, or special losses, loss of profit, loss of revenue, loss of opportunity, or loss of anticipated savings.

11. Copyright and Intellectual Property

Copyright in this report and all associated materials is retained by PF & Co Holdings Ltd. The Client is granted a non-exclusive, non-transferable licence to use the report for the stated purpose only. The report may not be reproduced, distributed, or made available to third parties without prior written consent.

12. Statutory Authority Submission Note

Where this report is submitted to a statutory authority (planning authority, building control, Environment Agency, etc.), the authority will exercise its own professional judgement in assessing the application. Submission of this report does not confer any right of reliance upon the authority, and Site Intelligence accepts no liability for decisions made by statutory authorities.

13. Mortgage / Valuation / Purchaser Exclusion

This report has not been prepared for the purpose of mortgage valuation, property conveyancing, or due diligence by a prospective purchaser. Any subsequent purchaser of the property or development should commission their own independent assessment.

14. Report Validity Period

This report is valid for a period of 12 months from the date of issue. After this period, the report should be reviewed and updated to reflect any changes in site conditions, planning policy, or available data. Update triggers are documented in the preceding section.

15. Governing Law and Jurisdiction

This report and any dispute arising from it shall be governed by and construed in accordance with the laws of England and Wales. The courts of England and Wales shall have exclusive jurisdiction.

16. Not Financial / QS / Valuation Advice

Any cost estimates, development appraisals, or financial information contained in this report are preliminary and indicative only. They do not constitute quantity surveying advice, professional valuation, or financial advice. All cost estimates should be verified by a qualified quantity surveyor or cost consultant before being relied upon for investment or procurement decisions.

17. Terms of Engagement

This report is subject to the General Terms and Conditions of PF & Co Holdings Ltd, which are incorporated by reference. A copy is available on request.

> Product-Specific Note
>
> This travel-plan is a Tier 1 desktop assessment. It does not include site-specific survey, intrusive investigation, or specialist field work. The findings are based on publicly available data and should be read in conjunction with the Known Limitations section of this report.
